

Success Story of Project Completed for the Government

April 14, 2009

Project Owner: Environmental Protection Department (EPD)

Project Name (in English): Upgrade Electronic Filing System

Project Name (in Chinese): ---

Project Description: Upgrade of Canofile v2.5 Electronic Filing System to Canon Document Management System, File Navigator with Canon DR-series scanner. Canofile's non-open discontinued sharing filing system with "Magneto-Optical" drive is replaced by Canon File Navigator with open file format (eg. pdf, tiff, etc.) and different access control right security. High-compression colorful pdf documents can save more than 50% spacing. Great improvement of searching electronic documents by MSG colleagues makes their response to customers much faster.

Means of Service Acquisition: Tender

Contractor Name: Professional Service & Support team of Canon Hongkong Co. Ltd.

Subcontractor Name: ---

Project Commenced on: December 2008

Project Completed on: February 2009
