

Success Story of Project Completed for the Government

29 September 2005

Project Owner : Drainage Services Department

Project Name (in English) : Upgrade of Maintenance Management System

Project Name (in Chinese) : 渠務署 - 維修管理系統(升級服務)

Project Description :

To upgrade Maximo version 4.0.1 to version 5.2 Enterprise Asset management System for the Drainage Services Department

Means of Service Acquisition : Open Tender

Contractor Name : Fujitsu Hong Kong Limited

Subcontractor Name : Not Applicable

Project Commenced on : 5 March 2004

Project Completed on : 20 September 2004

The contract covered the provision of hardware, system software, networking service and the migration services. The project had migrated DSD Maintenance Management System built on MRO Maximo Enterprise Assets Management System version 4.0.1 to 5.2, and the database from SQLBase to Oracle 9i. It also covered the enhancement on the integration with other systems, workflow and reporting.

The MMS is now a web-based system instead of text based. The workflow is streamlined so as the integration with the subsystems. The system is enriched with potential for growth.
