Super: (How Wi-Fi can help?)

Mr. Wi-Fi: I am Mr. Wi-Fi. Let me show you how Wi-Fi.HK can help you. A visitor over there seems to have a problem.

Airport scene appears. A visitor with luggage holding a cell phone looking puzzled.

Visitor: I need to find this hotel address. What can I do?

Mr. Wi-Fi appears and explains the coverage of Wi-Fi.HK.

Mr. Wi-Fi: When travelling in Hong Kong, how to access to the Internet if you do not have data roaming service? Mr. Wi-Fi could help. There are over 20 000 Wi-Fi.HK hotspots in places such as the airport, parks, cultural, recreation and leisure venues. Select Wi-Fi.HK hotspots and access to the Internet for free.

The lady over there needs help. How can Wi-Fi.HK help her?

Scene changed to a worried young lady carrying a tablet computer walking back and forth.

Lady: I have to send out this document. How can I search Wi-Fi service nearby?

Mr. Wi-Fi appears and explains how Wi-Fi hotspots can be searched while offline.

Mr. Wi-Fi: If you want to look for Wi-Fi service nearby, you may install the Wi-Fi.HK mobile app. The app can help you search the Wi-Fi.HK hotspots nearby, in both online and offline modes, facilitating easy access to the Internet.

In a park, a grandmother is taking selfie with her granddaughter, then seems troubled while tapping through her cell phone.

Grandmother: How to send this picture to your mum?

Mr. Wi-Fi is holding up his cell phone, explains that no prior registration and software installation is required before using at least 30-minute free Wi-Fi service.

Mr. Wi-Fi: Wi-Fi.HK is easy to use. You are not required to download any software. You do not need to provide any personal information. Simply connect to Wi-Fi.HK hotspot to enjoy at least 30-minute free Wi-Fi service.
