

Data.One is a portal to facilitate the wider dissemination of Public Sector Information (PSI) for value-added re-use. We believe that PSI is not only a valuable source of reference, but may also generate valuable applications. Facilitating value-added re-use of PSI will be conducive to the development of Hong Kong as a knowledge-based economy. All data on this portal are downloadable free-of-charge for commercial or non-commercial reuse. The data are presented in computer-readable formats and can be flexibly manipulated for different applications, such as developing mobile applications.
