Super: Downloading Love - Sight

Tina messages her boyfriend Mike while waiting for the bus at a bus stop.

(Message from Tina: I'm waiting for the bus now. Where are you?)

At the main entrance of the Hong Kong Wetland Park, Mike receives Tina's message and replies her with a selfie and a short note.

(Message from Mike: I'm waiting for you!)

Tina smiles after getting Mike's message. But then her eyes feel sore. She takes out the eye drops from her bag and applies it to one of her eyes.

Feeling a little better, Tina opens the GovHK Apps on her mobile phone and downloads the Hong Kong Wetland Park app. She browses through the wildlife section on the app with delight.

At the Wetland Park, Tina meets up with Mike and they tour around the park, looking at the fish by the pond and watching birds. As they are taking a break enjoying the scenery, Tina suddenly feels a bit saddened.

Mike: Are you okay, dear?

Tina: Can we still go to different places together in the future?

Mike: Of course!

(Heartbeat) The next day, Tina is admitted to hospital for an eye operation. Meanwhile Mike goes to different places with his instant camera and takes pictures of beautiful natural views, preparing for a surprise for Tina.

While Mike is busy shooting, he gets a notification on his phone. It is a Cold Weather Warning from GovHK Notifications. Despite the chill, Mike goes on with his shooting. On the other hand, Tina is lying in the theatre bed in the hospital, ready for operation.

Mike searches for greening assets in different places on the Tree & Landscape Map app while shooting.

At home, Tina gradually recovers from her eye operation. Mike is ready to remove the bandage from her eyes.

Mike: I'll remove the bandage for you now.

Tina: Um.

Mike gently takes off the bandage and Tina slowly opens her eyes. While her sight is still a bit blurry, Tina is pleased to see a wall decorated with instant photos of wonderful views Mike shoots for her.

Mike puts his arm round Tina's shoulder affectionately in front of the photo wall.
