Its wide range of technology solutions and service offerings include system integration, application development and operation, IT outsourcing, managed services, digital solutions, and technical services.

Public Sector

Financial Services

Travel & Transportation

Communications

# Tech Talent Development Program

## Cultivating IT Talent for the Future

Lenovo PCCW Solutions offers Tech Talent Development Program to groom young talents from diverse academic backgrounds into future leaders. You will be given the opportunity to embark on a rewarding career in the ICT and business fields to become future CIO/CTO/Business leader.

By working in different functional areas of a business unit, you will not only develop specific skill sets, but also get to see the big picture of our businesses. This will enable you to gain international and cross-industry exposure and grow as an all-round manager. The program provides challenging and exciting assignments even at an early stage to get talents up to speed in growing their careers professionally. We offer an extensive portfolio of learning and development opportunities, including on-the-job trainings and short term regional job assignments during the 18-month program.
