

# Web Accessibility

**Digital Inclusion Division  
Office of the  
Government Chief Information Officer**

**19 February 2013**

# Agenda

---

- 1. What is Web Accessibility?**
- 2. International Standards & Testing Methods**
- 3. Web Accessibility Campaign**
- 4. Web Accessibility Recognition Scheme**

# What is Web Accessibility?

---

- Making website **Content** available for **ALL**
- **ALL** people of the community
- Including persons with disabilities (361,000 about 5.2% of total population)

# Common Pitfalls in Web Accessibility

## 1. No alternatives for non-text content

- Persons with visual impairment cannot perceive the image content

Alt = "Image 1"

Alt = "Officiating guests attending the Launch Ceremony of the Web Accessibility Recognition Scheme"

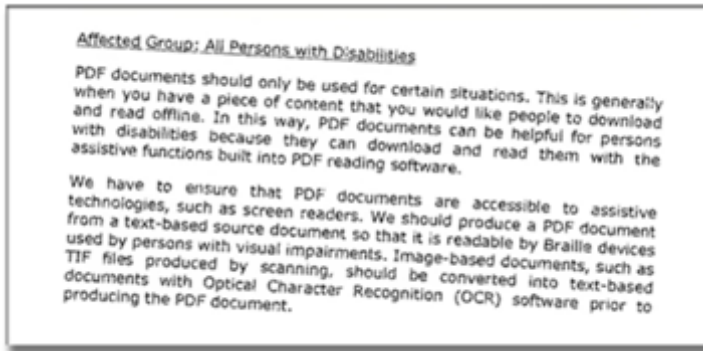

- ✓ e.g. contain descriptive text alternative for image

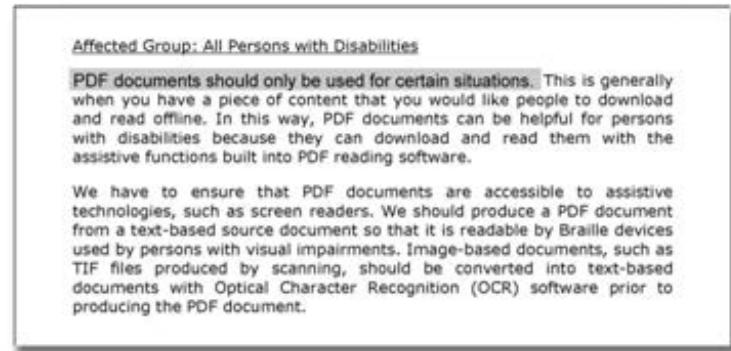

# Common Pitfalls in Web Accessibility

## 2. Inaccessible PDF Files

- **Screen reader cannot read the content**

**Scanned Image not accessible**

**Text-based accessible PDF**

- ✓ e.g. use proper PDF generator to produce a PDF document from a text-based source document;
- ✓ use Optical Character Recognition (OCR) software after scanning

# Common Pitfalls in Web Accessibility

## 3. Text in Image is not accessible

- Information is not conveyed to all

Text in image

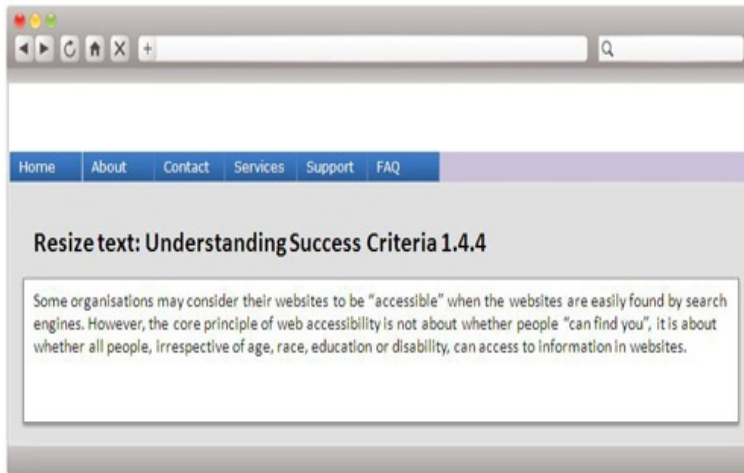

Accessible text on a webpage

- ✓ Avoid to convey information of wide public interest
- ✓ If avoidable, provide descriptive text alternatives

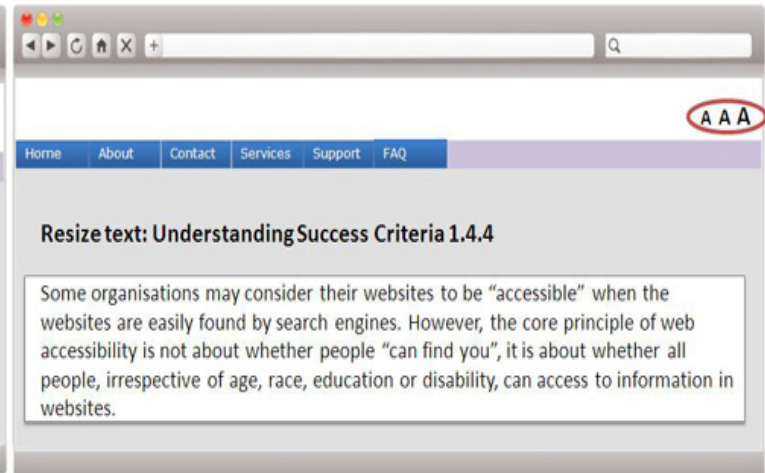

# Common Pitfalls in Web Accessibility

## 4. Small font sizes

- Persons with low vision cannot read the text

Cannot resize text

Can resize text

- ✓ e.g. provide text resize function

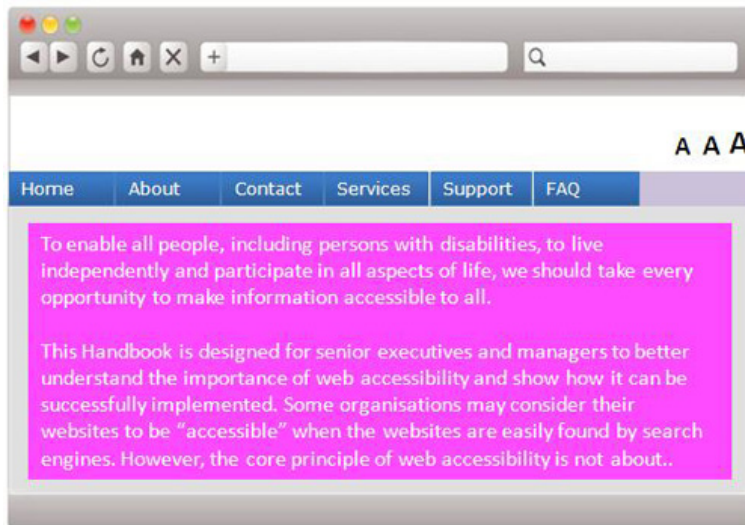

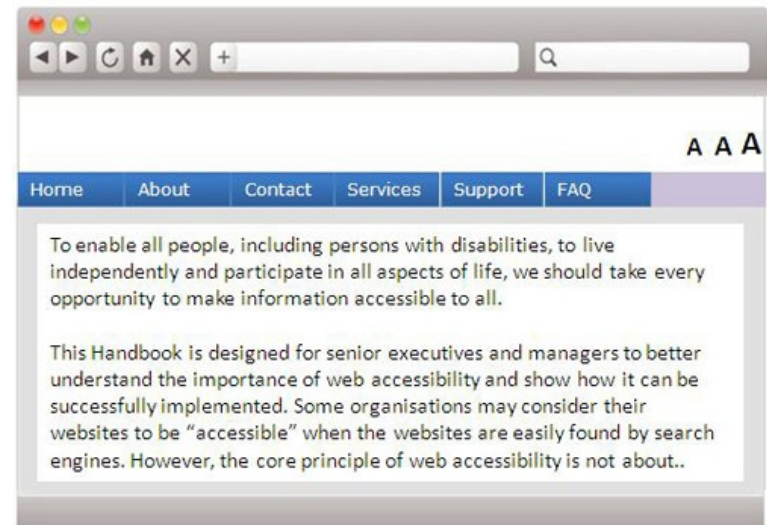

# Common Pitfalls in Web Accessibility

## 5. Insufficient colour contrast

- Persons with low vision have difficulty reading text that does not contrast with its background

Poor background contrast

Easier to read with higher contrast

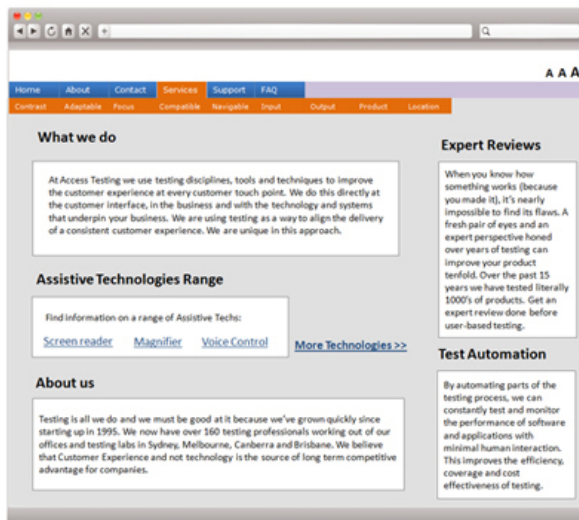

- ✓ e.g. provide sufficient contrast ratio

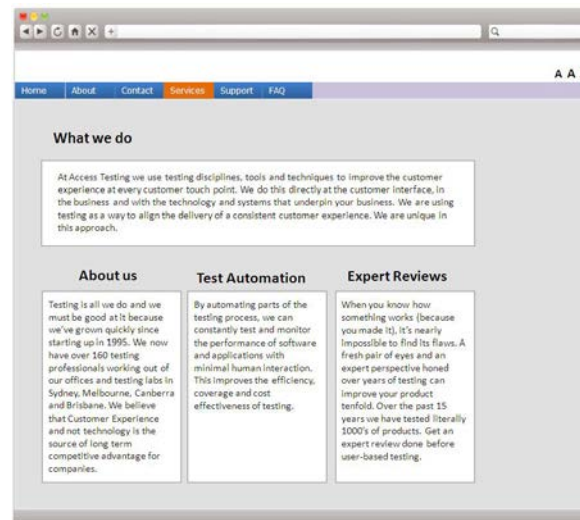

# Common Pitfalls in Web Accessibility

## 6. Complicated website infrastructure

- Persons with cognitive impairment have difficulty reading complex website structures

Complex structures

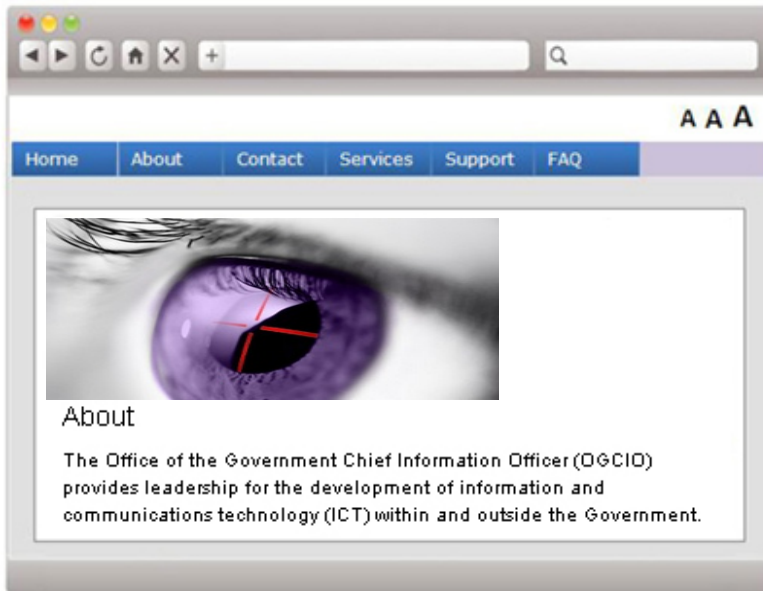

Simple structure

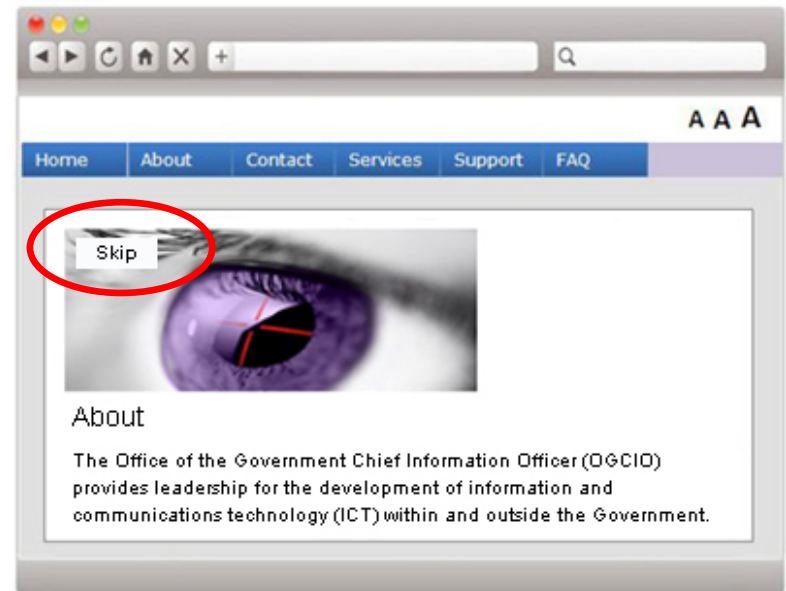

- ✓ e.g. provide simpler and ordered website structure

# Common Pitfalls in Web Accessibility

## 7. Unable to skip inaccessible Adobe Flash and moving objects

Unable to skip

Skip function added

✓ e.g. add a skip function

# Common Pitfalls in Web Accessibility

---

## 8. Websites with background audio

- ✓ e.g. add a turn off function

# Common Pitfalls in Web Accessibility

---

## 9. Video without captions and audio description

- Persons with visual or hearing impairments have difficulty to understand the video

- ✓ e.g. provide captions and audio description

# Benefits for Web Accessibility

---

- **Equal opportunities**
  - United Nations' Convention on the Rights of Persons with Disabilities
  - Disability Discrimination Ordinance (Cap 487) has created a legal duty for organisations to ensure their services are available to everyone
- **Social responsibility**
  - Build positive corporate image
  - contribute to a more caring and inclusive society

# Benefits for Web Accessibility

---

- **Search engine friendly**
  - get more prominent ranking in search engine results
- **Widest possible reach-out**
  - reach out to more online customers
- **Lower costs in the long term**
  - easier to maintain and is compatible with different web browsers and devices, which saves time and money in the long term
  - avoid unnecessary lawsuits

# Legislation / Guideline

Country	Legislation / Guideline
Australia	<ul style="list-style-type: none"><li>• Disability Discrimination Act (DDA) of 1992</li><li>• WWW Access: DDA Advisory Notes</li><li>• The Guide to Minimum Website Standards</li></ul>
Canada	<ul style="list-style-type: none"><li>• Canadian Human Rights Act of 1977</li><li>• The Government of Canada Internet Guide</li></ul>
China	<ul style="list-style-type: none"><li>• 國務院令第622號 - 《無障礙環境建設條例》</li></ul>
United Kingdom	<ul style="list-style-type: none"><li>• The Equality Act 2010</li><li>• Formal investigation report on Web Accessibility</li></ul>
United States	<ul style="list-style-type: none"><li>• American with Disability Act (ADA)</li><li>• Section 508 of the Rehabilitation Act</li><li>• Assistive Technology Act of 1998</li><li>• Section 255 of the Telecommunications Act of 1996</li></ul>
European Union	<ul style="list-style-type: none"><li>• Accessibility of Public Websites – Accessibility for PWDs: Council Resolutions, 2002</li></ul>

# Legislation in China

---

## 《無障礙環境建設條例》

- 縣級以上人民政府發布重要政府信息和與殘疾人相關的信息，應為殘疾人提供語音和文字提示；
- 國家舉辦的考試(如：升學、職業資格等)，應當為視力殘疾人提供盲文試卷、電子試卷等；
- 設區的市級以上人民政府設立的電視台在播出電視節目時配備字幕，每周播放至少一次配播手語的新聞節目；

# Legislation in China

---

- 設區的市級以上人民政府設立的公共圖書館應當開設視力殘疾人閱覽室；
- 殘疾人士組織的網站應當達到**無障礙網站設計標準**，設區的市級以上人民政府網站、政府公益活動網站，逐步達到無障礙網站設計標準。
- [http://www.gov.cn/zwggk/2012-07/10/content\\_2179864.htm](http://www.gov.cn/zwggk/2012-07/10/content_2179864.htm)

# Agenda

---

1. What is Web Accessibility?
2. International Standards & Testing Methods
3. Web Accessibility Campaign
4. Web Accessibility Recognition Scheme

# International Standards

---

- **World Wide Web Consortium (W3C)** consists of people from industries, disability organisations, governments, and research labs from around the world, develops strategies, guidelines, and resources to help make the web accessible to people with disabilities
- Web Content Accessibility Guidelines (WCAG) have been developed over the years by W3C
- Version 1.0 in 1999; version 2.0 in 2008

<http://www.w3.org/WAI/>

# International Standards

---

- The WCAG consist of four parts —

4 Principles

12 Guidelines

61 Success Criteria

Many Techniques

# WCAG - Principles

---

## 4 Principles

- Content is **Perceivable**
- User interface components and navigation are **Operable**
- Information and operation are **Understandable**
- Content is **Robust** enough to be interpreted reliably by a wide range of web browsers, assistive technologies, etc.

# WCAG - Principles

---

## Guidelines for Principle 1 - Perceivable

- 1.1 **Text Alternatives:** Provide text alternatives for any non-text content so that it can be changed into other forms people need, such as large print, braille, speech, symbols or simpler language
- 1.2 **Time-based Audio and Video Media:** Provide alternatives for time-based media
- 1.3 **Adaptable:** Create content that can be presented in different ways without losing information or structure
- 1.4 **Distinguishable:** Make it easier for users to see and hear content including separating foreground from background

# WCAG - Principles

## Principle 1 - Perceivable

- Example - Audio CAPTCHA

Home > [Community Initiatives and IT Services](#) > Web Accessibility

**Web Accessibility Suggestion Box**

Name :

Telephone Number :

(Please provide country/area codes if outside Hong Kong)

E-mail Address :

Suggestion / Comment :

Enter the characters in the image  
(CAPTCHA):

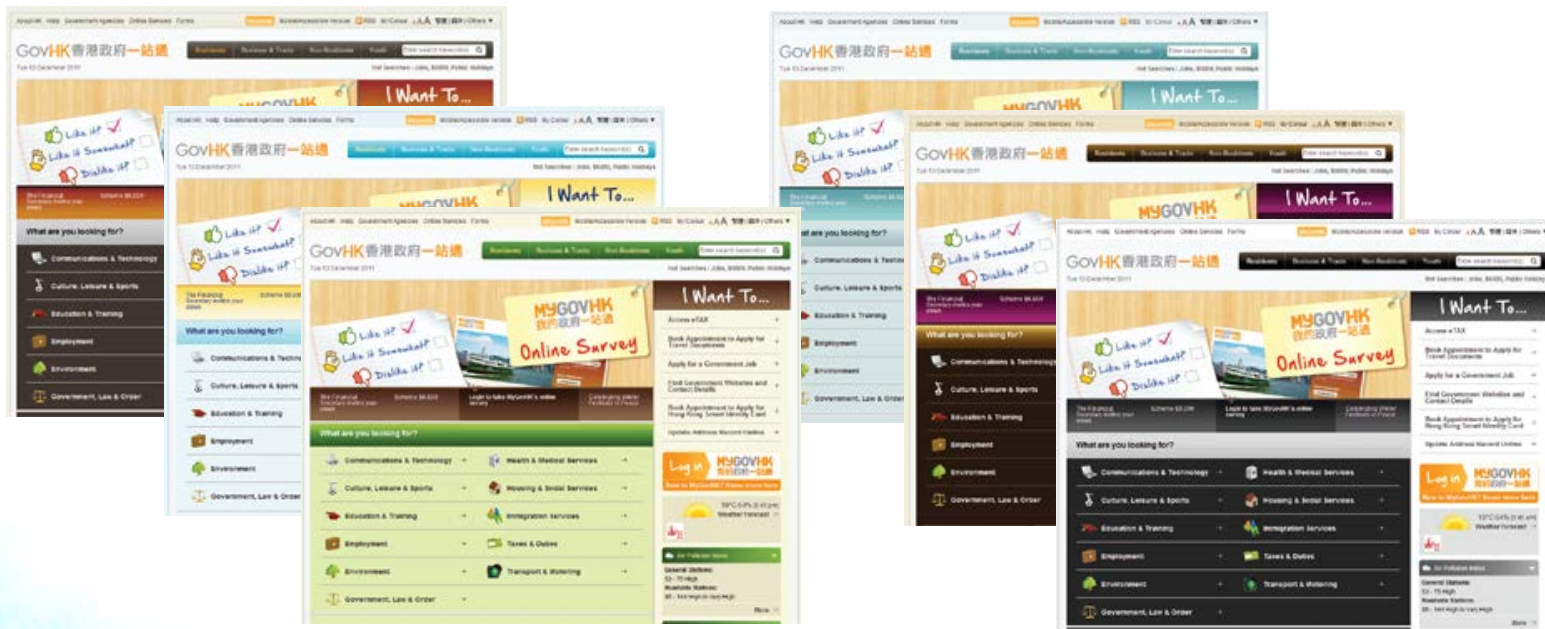

# WCAG - Principles

## Principle 1 - Perceivable

- Example - Sufficient colour contrast 4.5 : 1

[www.gov.hk](http://www.gov.hk)

# WCAG - Principles

---

## Guidelines for Principle 2 - Operable

- 2.1 **Keyboard Accessible:** Make all functionality available from a keyboard
- 2.2 **Enough Time:** Provide users enough time to read and use content
- 2.3 **Seizures:** Do not design content in a way that is known to cause seizures
- 2.4 **Navigable:** Provide ways to help users navigate, find content, and determine where they are

# WCAG - Principles

## Principle 2 - Operable

- Example - Provide users enough time to read and use content

The screenshot shows the OGCIO homepage with the following elements:

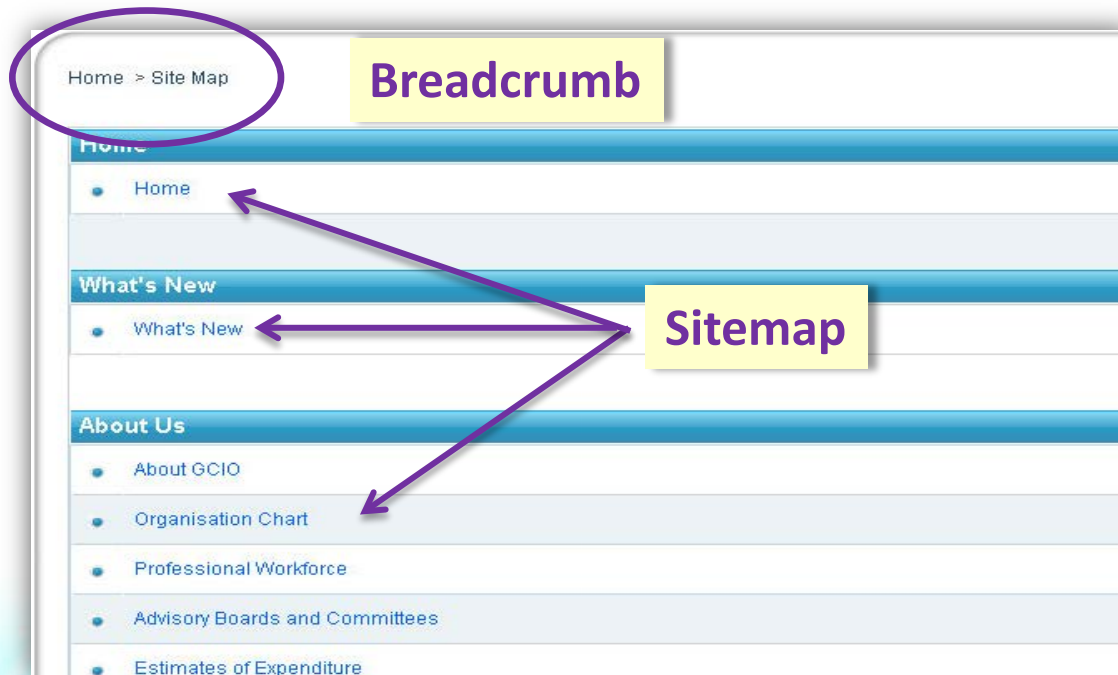

- Header:** Office of the Government Chief Information Officer, The Government of the Hong Kong Special Administrative Region. Includes language options (GOVHK 香港政府一站通, 繁體版, 簡體版), search bar, and utility links (MY COLOUR, SEARCH, SITE MAP).
- Navigation Menu:** Home, What's New, About Us, News and Publications, Facts and Figures, Strategies and Government IT Initiatives, Legal Framework and Internet Governance, Community Initiatives and IT Services, Business and Industry Facilitation, IT Infrastructure and Standards, Service Desk.
- Main Content:** WELCOME TO THE OGCIO HOMEPAGE banner featuring the '無障礙網頁嘉許計劃' (Web Accessibility Recognition Scheme) logo.
- Highlights:** A list of recent news items, including a video player for a speech by Mr. Victor Lam. A yellow callout box with a purple border points to the video player with the text 'Provide Pause function'.

www.ogcio.gov.hk

# WCAG - Principles

## Principle 2 - Operable

- Example - More than one way to help users navigate and find content

# WCAG - Principles

---

## Guidelines for Principle 3 and 4

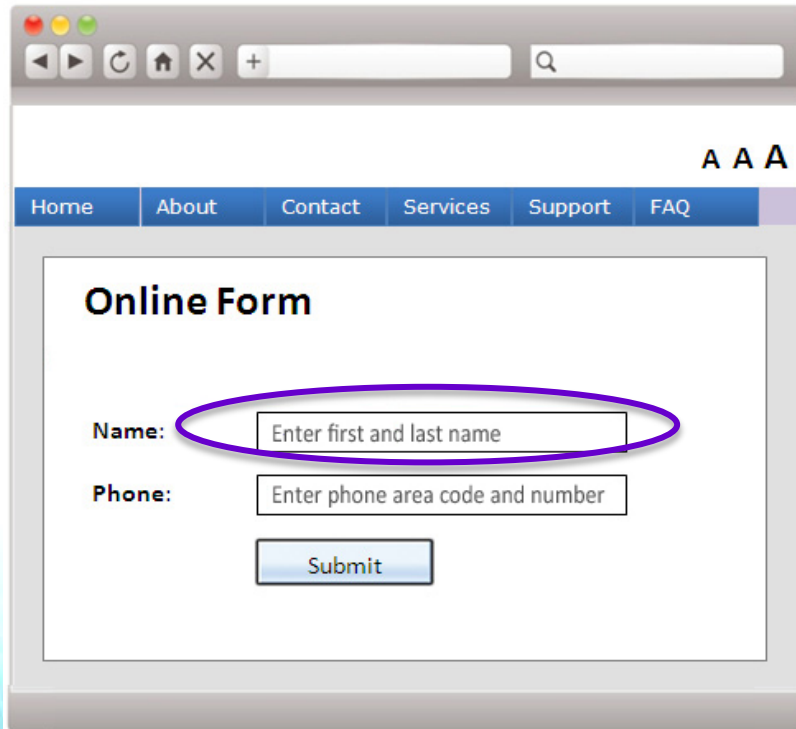

- 3.1 **Readable:** Make text content readable and understandable
- 3.2 **Predictable:** Make Web pages appear and operate in predictable ways
- 3.3 **Input Assistance:** Help users avoid and correct mistakes
- 4.1 **Compatible:** Maximise compatibility with current and future user agents, including assistive technologies

# WCAG - Principles

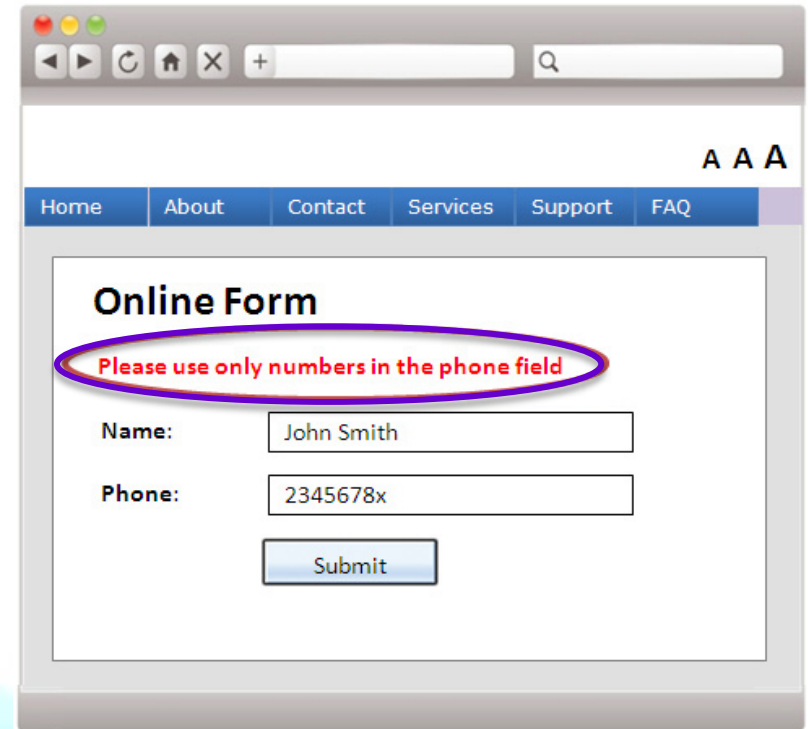

## Principle 3 – Understandable

- Example - Clear label with cue and error identification

A screenshot of a web browser displaying an "Online Form". The form has a navigation menu with links for Home, About, Contact, Services, Support, and FAQ. The form title is "Online Form". There are two input fields: "Name:" with the placeholder text "Enter first and last name" and "Phone:" with the placeholder text "Enter phone area code and number". A "Submit" button is located below the phone field. A purple oval highlights the "Name:" label and its input field, illustrating input assistance.

Input assistance

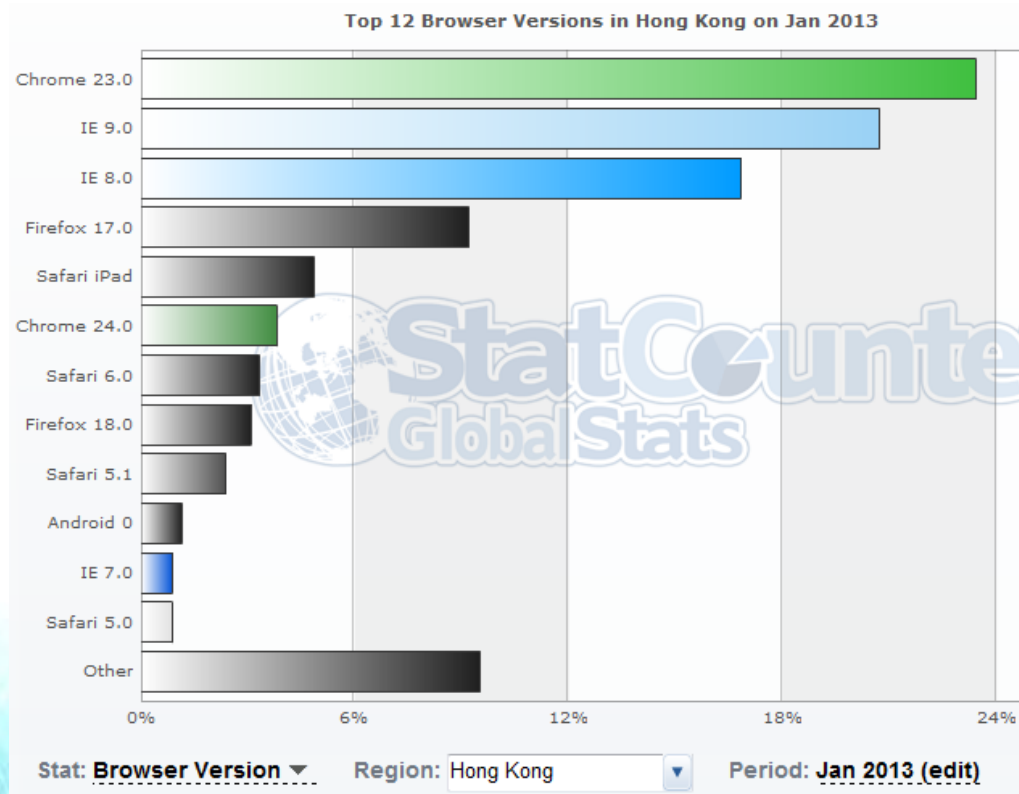

A screenshot of a web browser displaying the same "Online Form". The form title is "Online Form". There are two input fields: "Name:" with the value "John Smith" and "Phone:" with the value "2345678x". A "Submit" button is located below the phone field. A red oval highlights the error message "Please use only numbers in the phone field" in red text, illustrating error identification.

Error identification

# WCAG - Principles

## Principle 4 – Robust

- Compatibility with browsers

<http://gs.statcounter.com/>

# WCAG - Conformance

- There are three Levels of conformance –

<b>Level A</b> 25 success criteria	<b>Level AA</b> +13 success criteria	<b>Level AAA</b> +23 success criteria
Basic	Recommended	Ideal

Level AA Conformance

# WCAG - Conformance

---

- Example - Video Requirements

	Level A	Level AA	Level AAA
<b>Pre-recorded Video</b>	Captions + (audio description / text transcript)	Captions + audio description	Extended audio description + Text description + Sign language

# Overseas Government Practices

- Governments websites adopting WCAG

Country	Standard	Timeline to achieve standard
New Zealand	WCAG 2.0 Level AA	June 2010
United Kingdom	WCAG 1.0 Level AA	March 2011
Hong Kong	WCAG 2.0 Level AA	January 2013
Canada	WCAG 2.0 Level AA	July 2013
Singapore	WCAG 1.0 and key aspects of WCAG 2.0	December 2013
Australia	WCAG 2.0 Level A & AA	December 2014

# Testing Techniques

---

## 1. Code scanning

- Many accessibility issues can be detected automatically using specialist software and tools
- Example tools –
  - AChecker
  - WAVE
  - PDF Accessibility Checker

# Testing Techniques

---

## 2. Visual review

- A simple look at a website can reveal many potential web accessibility issues for persons with disabilities
  - Can the content be easily read?
  - Is the text too small?
  - Does it use pale coloured text on a pale background, making the text hard to read?
  - Move around the webpage using just a keyboard. Can we access all the links and functions?
- Example tools –
  - Vischeck
  - Colour Contrast Check

# Testing Techniques

---

## 3. Manual testing with screen readers

- Navigate website and access the content through the screen readers
- Example tools –
  - Jaws
  - NVDA
  - VoiceOver

# Testing Techniques

---

## 4. Manual testing with other assistive technologies

- Screen magnification tools and voice control tools
- Example tools –
  - ZoomText
  - Dragon Naturally Speaking

# Testing Techniques

---

## 5. Human testing

- The most thorough approach to ensure web accessibility is to test a website by persons with disabilities
- Some organisations supporting persons with disabilities offer human testing services

# Agenda

---

1. What is Web Accessibility?
2. International Standards & Testing Methods
- 3. Web Accessibility Campaign**
4. Web Accessibility Recognition Scheme

# Web Accessibility Campaign

---

Launched in October 2011

## Objective

- To facilitate access to online information and services for all segments of the community including persons with disabilities
- To promote wider adoption of web accessibility design in both public and private websites

# Web Accessibility Campaign

## Government Leadership

## Capability Building

## Encouragement and Recognition

Conformance of websites to W3C WCAG Level AA

Promulgation of Guidelines & Good Practices

Promotion with Public Sector Network

# Government Leadership

---

- Government has been implementing web accessibility guidelines since 1999
- Internal guidelines has been updated to follow latest international standard - W3C WCAG 2.0
- Require all government websites including thematic websites, except archive materials, to achieve [W3C WCAG 2.0 Level AA](#) conformance by **January 2013** within practicable means 
- Ask quasi-government and public service organisations to take corresponding action

# Capability Building

[www.webforall.gov.hk](http://www.webforall.gov.hk)

- Illustration examples of success criteria (WCAG 2.0 Levels A & AA)

[http://www.ogcio.gov.hk/en/community/web\\_accessibility/handbook/live\\_example.htm](http://www.ogcio.gov.hk/en/community/web_accessibility/handbook/live_example.htm)

- Presentation slides of seminars / technical workshops
- Government's best practices
- Web Accessibility Handbook
- Web Designers' Corner
- Frequently Asked Questions

# Capability Building

- **Nov 2011** > Awareness Seminars for non-government sector
- **Mar 2012** > Talk in World Internet Developers' Summit
- **Apr 2012** > Seminars in tertiary institutions
- **May 2012** > Workshops for ICT practitioners
- **Jun 2012** > Experience sharing with public organisations' IT staff
- **Jul 2012** > Talk in ICT Industry Forum
- **Oct 2012** > Seminar for non-government sector
- **Dec 2012** > Talks for CIOs, Chamber, NGOs
- **Jan 2013** > Talks for tertiary students

# Current Adoption

---

## Testing Report on Web Accessibility

- Conducted by Hong Kong Blind Union in 2011 and 2012
- 30 local websites frequently used by the visually impaired
  - Media
  - Banking
  - Public Services
  - Education Institutions
  - Restaurants
  - Super Markets
  - Telecommunications
- Against 15 pre-defined criteria
- Same set of websites and criteria in both 2011 and 2012

# Testing Results

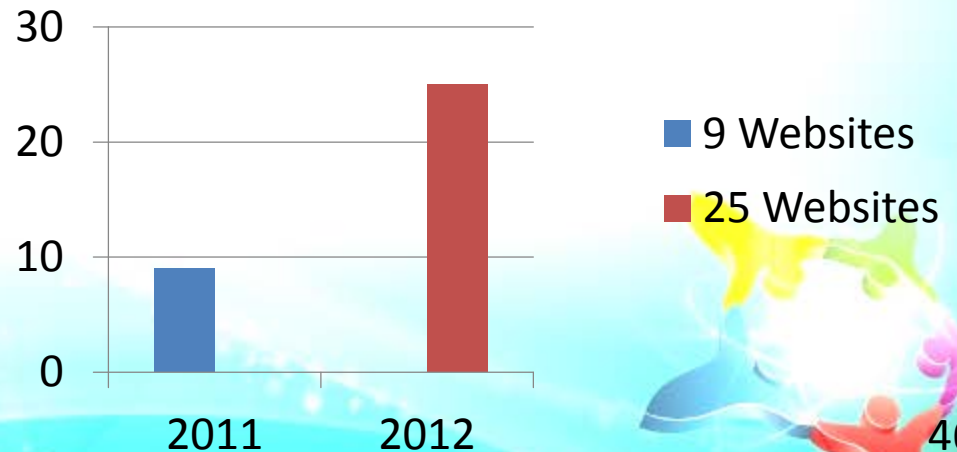

## No. of websites meeting ALL 15 Web Accessibility criteria

9 out of 30 websites  
(30%)

25 out of 30 websites  
(83%)

## No. of websites meeting at least 13 Web Accessibility criteria

# Local Complaint Cases

- A NGO issued a press release in June 2012
- Complained about inaccessible PDFs published on Government website

## 選舉處涉歧視殘障

無法在月底前向選舉處申索的人士，將不能在9月投票。

【本報訊】選舉事務處在核實選民登記冊時涉觸犯《殘疾歧視條例》。香港失明人士協進會會長莊陳有昨去信平機會，指選舉事務處在本月15日公佈的臨時選民登記冊及抽樣調查信件，只提供一般文字版本，視障人士無法查閱，隨時在不知情的情況下喪失選民資格。

莊陳有指失明人士看不見選舉事務處發出的抽樣信件，可能連需要核實身份也不知道。「事務處嘅網頁都係只得文字，欠缺無障礙設施，香港話就話無障礙城市，事實仲好落後。」莊陳有已在本月15日去信選舉管理委員會主席馮驊，要求改善，至今仍未獲回覆。

## 盲人勝利 麥當勞網頁去障礙 多間連鎖餐廳網頁 視障者難叫外賣

文章日期：2012年7月23日

【明報專訊】本港不少連鎖餐廳均會在網頁提供「網上訂購」服務，但有視障者組織留意到本港大型連鎖餐廳網頁不設「無障礙」文字版，令視障者無法透過屏幕報讀軟件瀏覽網頁，致全港約12萬名視障者在網上叫外賣障礙重重。有失明者早前透過報讀軟件上網，到麥當勞網頁叫外賣，但該網主頁不斷重複播放音樂，干擾報讀軟件，令他苦無辦法讀到外賣電話及餐單落單，遂於今年2月透過香港失明人協進會向平機會投訴。本報與視障者測試另外4間連鎖餐廳，亦發現不設無障礙文字版，令視障者難「叫外賣」。

# Local Complaint Cases

**多間連鎖餐廳網頁無障礙情況**

- 麥當勞**
  - 首頁重複播放音樂，干擾盲人屏幕閱讀軟件；網頁設計成以滑鼠控制，盲人無法操作
  - 回應：已改善；關掉音樂，加入純文字檔，包括麥麥送熱線，現已研究全面提升網站，以進一步達至無障礙
- 必勝客**
  - 主頁圖片並沒載有文字描述或替代文字 (ALT Text)，網站導航排序並非依序排列，「網上訂購」以圖片展示，要逐一進入才有文字，另盲人無法找到「立即訂購」按鈕
  - 回應：留意到問題，希望今年推出便利視障者訂購的網頁，現階段先由電話服務員提供協助，請出外賣項目及細節
- 吉野家**
  - 首頁為 Flash 動畫配直排的文字圖片，軟件斷續讀出不相干單字，無法繼續進入
  - 回應：截稿前未獲回覆
- 肯德基**
  - 主頁圖片並沒載有文字描述或替代文字 (ALT Text)，熱線電話以沒有文字描述的圖片顯示
  - 如直接進入「網上訂購」頁面，讀到首頁「今期推介」餐單，但無法讀到「登入訂購」、「網上訂購」頁面，其他頁面的按鈕只附連結，無文字描述
  - 回應：截稿前未有回覆
- 板長壽司**
  - 首頁為 Flash 動畫，整頁以沒載有文字描述的圖片組成，軟件只能重複讀出「板長壽司，和之味集團成員」，無法繼續進入
  - 回應：暫未設無障礙網頁，將來考慮作改善

<http://hk.news.yahoo.com>

## 上網叫外賣薄餅 找半小時食白果

明報 - 2012年7月23日星期一 上午5:24

電郵 推薦 0 推文 +1 列印

【明報專訊】失明者鄭灼培 (John) 和任博輝網上訂購外賣屢試屢敗，兩人早前協助檢視本港主要連鎖快餐店的網頁，令記者體會他們叫外賣之艱。

例如兩人登入必勝客網頁，由於頁面沒有文字描述或替代文字 (ALT Text)，報讀軟件只能讀出網頁圖片的檔案名字，兩人呆聽30分鐘，才聽到「delivery (外賣)」，但點進去又再遇到大量圖案，要逐一打開，才能知悉按鈕代表的是一人套餐、必勝批還是升級優惠，阿輝無奈說：「那些連結有如抽屜，我們永遠不知裏面有什麼，要逐個逐個打開。」兩人最後決定作罷。

### 圖像動畫充斥 報讀器讀不到

肯德基網頁情況亦類近，兩人登入「網上訂購」頁面，軟件可讀到首頁「今期推介」的文字，其他頁面的按鈕只附連結，無文字描述。如想改打電話叫外賣，網頁的熱線電話亦只以圖片顯示，報讀軟件無法讀出，兩人最終亦無法完成外賣程序。

至於吉野家，首頁是Flash動畫配以直排的文字圖片，軟件斷續讀出不相干的單字，最終兩人找不到方法登入。另一連鎖店板長壽司的網頁，首頁同樣是Flash動畫，一般人可看到頁頂的外賣電話，但由於整頁以沒載有文字描述的圖片組成，軟件只能重複讀出「板長壽司，和之味集團成員；板長壽司，和之味集團成員……」沒完沒了，兩人最終亦決定作罷。

# Local Complaint Cases

## 聯招網兩障礙 視障生難改選

[昔日文章]

文章日期：2012年07月23日

Like 0

【明報專訊】在剛放榜的中學文憑試，考生只可在「大學聯合招生辦法」網頁修改選科，但該網頁設計為視障生帶來兩大障礙，一是要使用視障生無法操作的滑鼠；二是網頁圖片不設文字描述，令屏幕報讀軟件無法閱讀。平機會檢測後亦指聯招網不太有利視障生，促作改善。

聯招處回覆，將為完全失明學生作特別安排，並繼續檢視需改善地方，但為維持網頁穩定性，今年難以改正所有頁面。

聯招處：將檢視需改善處

香港失明人協進會項目經理高碧姬稱，近月接獲視障學生投訴無法使用聯招網，主要問題是要使用拖拉形式（drag-and-drop）進行學科改選，即要求使用者以滑鼠按着按鈕，拉至另一位置放下，對於只能使用鍵盤操作網頁的視障學生來說並不可行。

# Agenda

---

1. What is Web Accessibility?
2. International Standards & Testing Methods
3. Web Accessibility Campaign
4. **Web Accessibility Recognition Scheme**

# Web Accessibility Recognition Scheme

---

## Objectives

- Recognise efforts and accomplishments in adoption of web accessibility design
- Further raise the awareness in the community and encourage adoption

## Structure

- Co-organise with Equal Opportunities Commission
- Open to local businesses, NGOs, academia and quasi-government organisations
- Not a competition or compliance audit

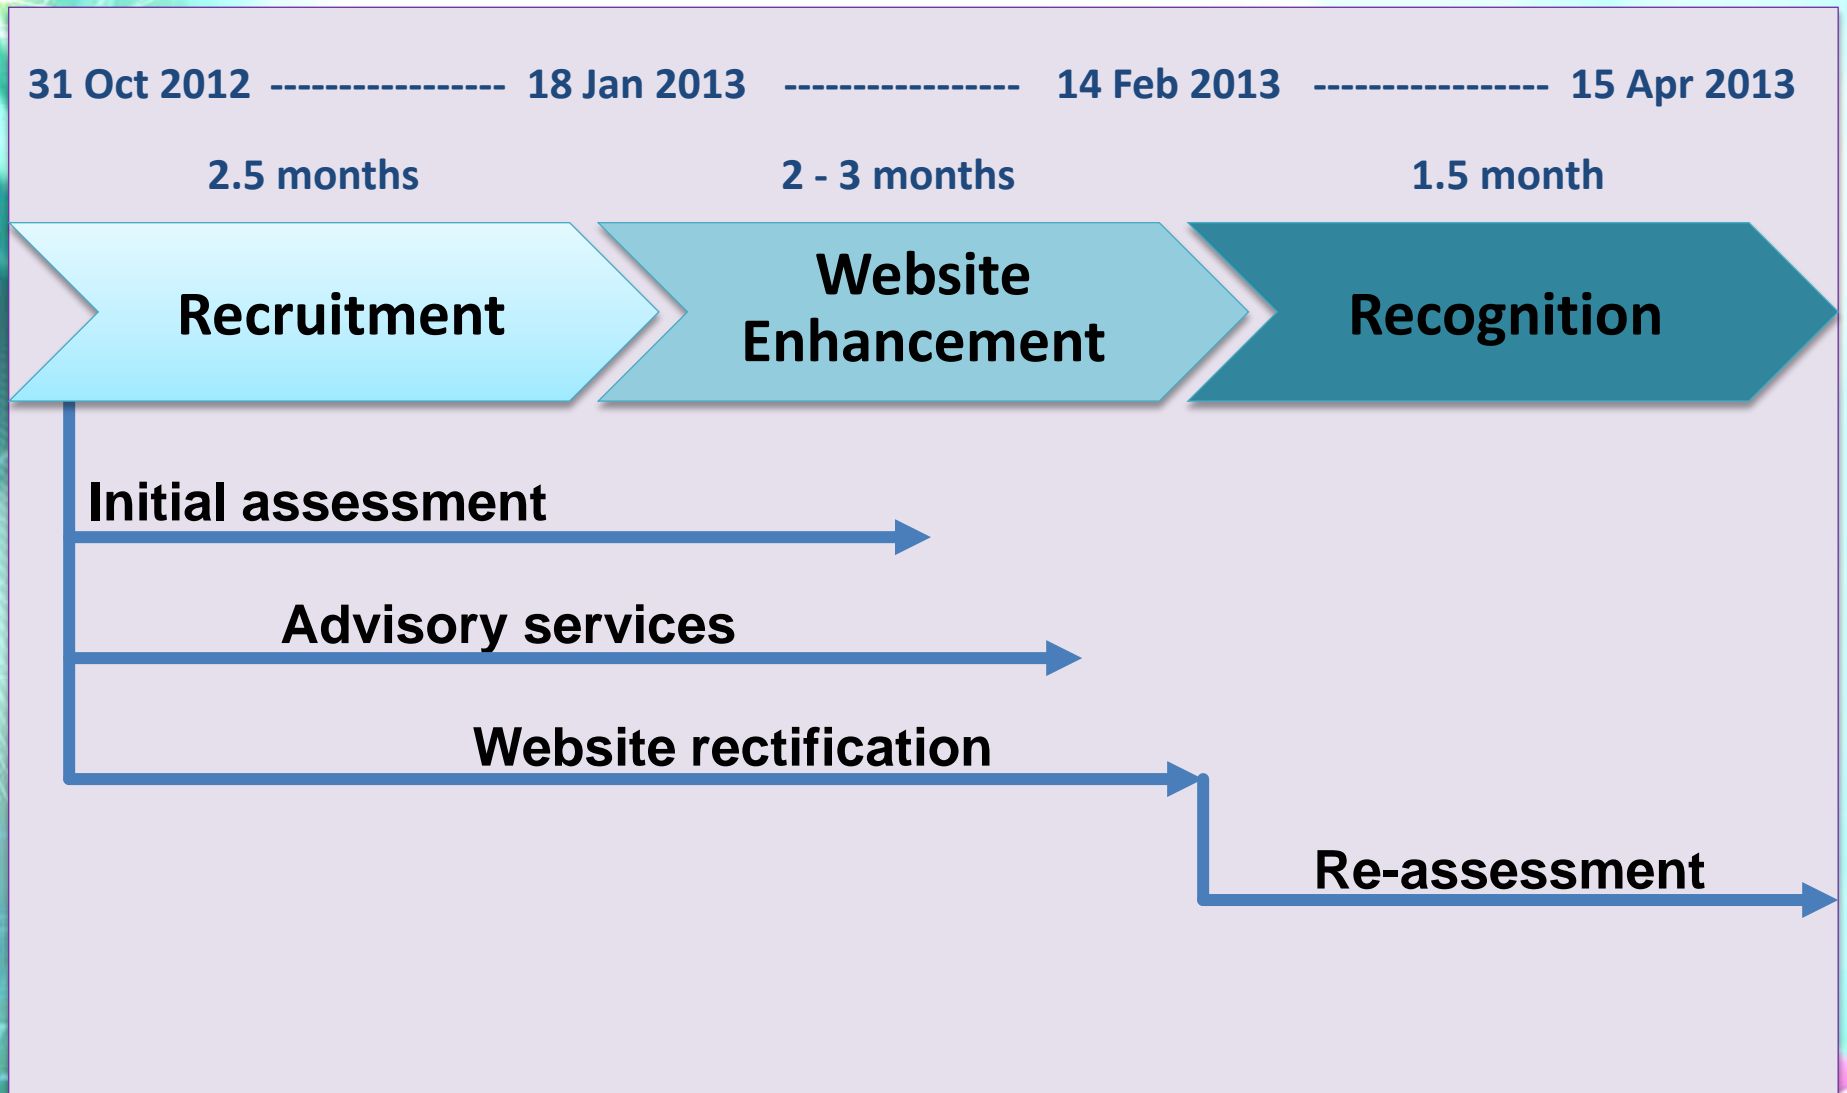

# Web Accessibility Recognition Scheme

## Two-tier Accreditation System

- **1st tier (Silver Award)**
  - Websites incorporating basic web accessibility features
- **2nd tier (Gold Award)**
  - Websites incorporating basic and key features
- Accreditation logos will be granted to awardees for display in their accredited websites
- The accreditation needs to be renewed annually

# Web Accessibility Recognition Scheme

# What you can help?

---

- Observe latest guidelines and standards
- Adopt web accessibility designs in school website
- Specify web accessibility requirements when website service procurement
- Help colleagues and content providers aware of the importance and relevant skills
- Join Web Accessibility Recognition Scheme

**For any enquiries,**
